

*“The giving of oneself
is the pure essence of
generosity.”*

Pascale Gauthier-Bizier

Pascale Gauthier-Bizier is 21 years old and originally from Gatineau, Quebec. She recently completed her College studies at the “Cegep de l’Outaouais” in special education. She had for quite some time desired to travel and bring any kind of help to communities in need. After taking many steps to obtain this goal, she has been selected to be part of the Coady International’s Institute Youth In Partnership Program.

Pascale will be living in Peru, in the region of Huancayo, for a period of 6 months. She will be working in collaboration with an organization named Carritas which is very active in promoting special programs for the marginalized in the mountainous regions of Huancayo. Her focus is on an infant stimulation project linked with childhood development and global health of children under 5 years old suffering from malnutrition. This project holds big importance for her and will hopefully open doors to an international career.
