

“We are having a party and sending the bill to our children. My hope is to help reverse the despoilation of our landbase and marine ecosystems, and hand down a world as rich as ours to the future generations.”

Robert Rankin

Robert grew up among the splendid lakes and rivers of Muskoka, ON. After a pinnacle sustainable development cultural exchange with Canada World Youth in India, Rob went on to study Environmental Science at Simon Fraser University, Burnaby, followed by an M.Sc. in Zooecology on avian diversity in Sweden, Lund University. After a couple of seasons working as a field technician, Rob has returned to the development field as a Coady Youth Associate.

Robert will be joining the Sustainable Grenadines Project (SusGren) on St. Vincent and the Grenadines, working as a Sustainable Development and Livelihoods Facilitator, in particular, assisting groups with capacity building and transitioning sustainable livelihood initiatives into business cooperatives.
